BETTER BLOOMING BULBS

HEBERLING'S GLADIOLUS

INC
CORN BELT GROWN

PRICE LIST

JANUARY OF 1933

QUALITY • ECONOMY

Dear Friend: I welcome this opportunity of greeting each of my customers and friends personally.

¶ I feel that I have this privilege only so long as I continue to serve you efficiently with true to name merchandise of high quality. This I shall continue to do. ¶ The orders last fall while not generally as large as usual were a tribute to gladiolus in general and to Heberling's Gladiolus in particular and among them were many new customers, for all of which please accept my sincere thanks.

¶ May I wish each of you a better and brighter nineteen hundred thirty-three and a grand and glorious garden of "glads". ¶ If I may suggest, a garden of good glads will make a drab year bright!

J. H.

J. H. HEBERLING • EASTON • ILLINOIS

FOREWORD

●

The lover of gladiolus must consider two fundamental factors when he purchases bulbs for his garden—quality, and price.

Our prices speak for themselves. A glance at them will show, when the discount has been deducted, that they are extremely low. An even greater reduction has been made in the quantity-price section of this price list. It will pay you to look at it.

We wish that we could illustrate the quality of our bulbs as easily as we have the fairness of our prices. We should like to send a few of our bulbs as samples to each person on our mailing list, or better still, to show him through our store rooms so that he might see for himself the unexcelled quality of our stock. But, unfortunately, it would be highly impracticable to do either. We must therefore be content with trying to tell you about it.

The two hundred varieties that we list include the best of foreign and domestic introductions. They include the best in the various color classes. They represent a selection, on the basis of merit, from the thousand and more varieties that we have grown.

Our bulbs are a product of a soil that is amply rich for nourishment, and sufficiently sandy to produce clean, scab free bulbs. They are a result of corn belt sunshine, and natural rainfall aided by Skinner irrigation. They are, for the most part, grown from small bulbs, and are young, high crowned, and vigorous. The Chief Plant Inspector of Illinois has certified them as being free from harmful diseases and insects including thrips.

During the four years since 1928, our flowers have been exhibited at two American Gladiolus Society Shows, those at Springfield, Illinois, and at Des Moines, Iowa. We hold the distinction of being the only exhibitor who has won the A.G.S. gold medal, for the most points in the professional division, for two years of the last four.

In addition to the A.G.S. Shows our flowers have been exhibited at four Illinois Gladiolus Society Shows.

In these six shows they have won 13 silver cups, one silver pitcher, eight gold medals, 17 silver medals, and 18 bronze medals. They have won ten purple ribbons, 109 blue ribbons, 73 red ribbons, and 43 white ribbons.

In other words, Heberling's Gladiolus have been awarded enough ribbons to stretch end to end for more than half a city block, and cups and medals enough to start a modest jewelry store.

From these facts a conclusion may be deduced that has already been verified by our customers of past seasons. We mean simply that our bulbs possess a healthy vigor, and a wealth of vitality that is unusual. All we ask is that you prove our statements for yourself; just try our bulbs.

OUR GUARANTEE

We guarantee all bulbs and bulblets purchased from us to be true to name, full sized, and free of disease and insects including thrips. We will replace stock or refund the purchase price of all bulbs and bulblets purchased from us that are not satisfactory.

TERMS

The terms and discounts immediately following apply only to the first section of prices in this price list. They do not apply to the f.o.b. Easton quotations.

All shipments will be **prepaid**. Please include both parcel post and express addresses. We will ship the cheaper way.

Each order must be accompanied by remittance in full, or a 20% deposit, the balance to be C. O. D.

No order for less than \$1.00 will be accepted.

Orders received before March 15 will be shipped on or near that date unless we are instructed otherwise. If requested, we can make shipment within twenty-four hours of receipt of order.

DISCOUNTS

20% may be deducted from the list price on all orders whose **net** total is less than \$3.00.

33 1/3% may be deducted from the list price on all orders whose **net** total is greater than \$3.00.

5% additional may be deducted on all orders whose **net** price is greater than \$25.00 and which are accompanied by payment in full.

SIZES AND SUBSTITUTIONS

Our bulbs are all carefully mechanically graded for size. They are listed in six sizes and bulblets. The bulb sizes are as follows: No. 1 (over 1½ inch), No. 2 (1¼-1½), No. 3 (1-1¼), No. 4 (¾-1), No. 5 (½-¾), and No. 6 (¼-½).

Another grading system that is sometimes used lists bulbs in three sizes, Large, Medium, and Small. It should be remembered that the Large bulbs are usually the same size as our No. 2 size, that the Mediums are the same as our No. 4s, and that the Small bulbs correspond to our No. 5s and No. 6s.

We do not substitute varieties without permission. However, at this season when many varieties are sold short, we request permission to substitute different sizes of the variety ordered. The bulbs will be as nearly the size ordered as possible, and we promise that you will receive your money's worth.

PRICES AND COUNT

3, 4, or 6 bulbs or bulblets will be sold at the dozen rate, 25 at the hundred rate, and 250 at the thousand rate.

Our very liberal count, and our practice of including many extras has been a source of surprise and pleasure to our customers. You may verify this statement by reading a few of their letters on back cover page, or, a better way, send us your order today.

VARIETY	Per	No. 1	No. 2	No. 3	No. 4	No. 5	Bulblets

The Proof of the Pudding!

Massachusetts, December 12, 1932

"You may be sure that your customers will remain your friends while you send such fine, clean stock in such generous measure as I received from you today."

Ilza E. Herrick

Ohio, October 31, 1932

"Enclosed fine order sheet and my check to your order for in payment.

Wish to advise you that I had wonderful success with bulbs ordered from you last fall. I also secured a nice stock of small bulbs from your 'Blue Ribbon' Bulblet special. A number of No. 1 bulbs ordered from one of our nationally known growers proved to be quite inferior. I therefore appreciated yours all the more, and you may expect me as one of your regular customers."

A. F. Helmbright

Wisconsin, November 17, 1932

"I appreciate very much the generous count and the extras included in my order. This is appreciated more as some are varieties I have been wishing for, but couldn't afford in my order."

O. A. Gigstead

California, March 28, 1932

"Please let me thank you for the promptness with which you filled my last order which included an order for my friend, E. K. McComb.

You were most liberal with both of us in sending extras and we are very thankful for your courtesy and liberality."

F. W. Potts

Virginia, December 28, 1932

"I received my bulbs in good shape just before Christmas and what a fine lot of them.

I very heartily thank you for the extras. You are the most generous person I've had any dealings with, and I assure you I not only appreciate this, but if I can direct any orders your way I will surely do so."

W. S. Pearson

New Jersey, December 27, 1932

"Your shipment of gladiolus was received in fine condition and I wish to express my appreciation for the extra bulbs which you so kindly included with the shipment.

I have nearly one hundred varieties, and it has been the custom of other growers from whom I have made purchases to include the commoner types as extras, which of course merely duplicated what I already had. The extras which you sent me, with the exception of Aflame and Nancy Hanks, were not only new varieties but exceptionally fine ones, and for that reason, allow me again to express my appreciation for your excellent judgment.

Walter K. Crater

Iowa, September 28, 1932

"In reply to your inquiry of 9-32 in which you asked me if my last order was filled satisfactorily—well I should say it was and then some! Fine bulbs and liberal count and I wish to take this opportunity to thank you for same and to prove my appreciation, I am enclosing herewith an order also P.O. order to cover same."

John G. Reding

New York, December 29, 1932

"I want to thank you for the very careful and prompt attention you gave the order which I sent you shortly before Christmas. The bulbs arrived in good condition and certainly looked fine. I would have hesitated to ask the cooperation of any nurseryman or grower in filling such a rush order but I knew you could be relied upon. Besides, there are many reasons why I now buy glad bulbs only from you."

Ruth C. Christman

Ohio, January 6, 1933

"I received my glad order from you last P.M. in fine shape. You had those glads wrapped and packed that they would have stood a trip to the North Pole. The bulbs I received were the old true kind, high crowned, healthy, and of true quality. Your over count was too darn generous."

Claude Jobson

..... AND SO WE SAY AGAIN—"ONCE A CUSTOMER OF J. H. ALWAYS A CUSTOMER"

Note—We have never had any experience with Gladiolus Thrips. However, for the convenience of many of our less fortunate friends, we list the following reference for an understandable discussion of thrip control methods: Bulletin E-300, issued on Oct. 14, 1932, by the Div. of Truck Crop & Garden Insects, Bureau of Entomology, U. S. Dept. of Agriculture, Washington, D. C.
